Call to hear a short recording that shares information about the Mary Kay marketing plan and how you can make extra money this holiday season!

Just for giving your opinion on the information shared, you can choose any Mary Kay product at **50% OFF** from your Beauty Consultant!

6 Qualities of a Successful MK Beauty Consultant

Busy Person: Busy people get more done! You make the best use of your time, which makes you coachable and trainable. You also understand the value of your time, and a career that pays accordingly.

Needs Money: Money is a great motivator! Whether to pay off debt, pay for Christmas, or have savings for the future, you can work towards those goals with your Mary Kay income.

Family-Oriented: Family is another great motivator for success, and also one of our core values Mary Kay Inc. was founded on: your faith first, your family second, and your career third!

Not the Typical Sales Type: A strong re-order business is a huge part of your Mary Kay income, so we look for people who want to build a relationship with their customers rather than make a one-time sale.

Doesn't Know Enough People: We offer free, comprehensive training about how to grow your business outside of your immediate friends and family.

Decision Maker: As a woman, there's rarely a time when you're kicking back, eating bon-bons, and deciding to start a business. We look for women who are willing to live by their dreams, not by their circumstances; women who are willing to try something new.
